Factory Audit & Patent

Our factories

1998~NOW

We established our first PVC product factory in Shenzhen in 1998 and move to Dongguan in 2012

2013~NOW

We have our laminated TPU factory in Huizhou from 2013, which give us more support on TPU waterproof bags production.

2020~NOW

In 2020, our Vietnam factory has been set up which gives our US and EU clients more support, they can benefit from the tariffs or eliminating.

2023~NOW

In 2023, we expanded our office area and decided to locate it in Dongguan. Currently, sample development and prototyping are taking place here.

2024~NOW

In 2024, we built a second factory in Vietnam, expanded the production line and added more machines to provide customers with better delivery time and higher quality products.

NEXT

In the future, we will continue to provide the best products and services, create a more influential brand image, and continue to expand the scale of the company!

Dry Bags For Fin

1. Waterproof Protection

Material: Constructed from 500D PVC-coated Tarpaulin or TPU-laminated fabric for abrasion resistance and UV stability.

2. Customized Fin Storage

Extended Cylinder Design: Accommodates fins up to 45cm in length (adjustable for monofins/bifins) with anti-scratch lining.

Dedicated Compartments: Separate wet/dry zones for fins, masks, and valuables.

3. Primary Applications

Scuba Diving/Snorkeling: Safely transports fins to dive sites while keeping other gear dry.

Freediving/Spearfishing: Protects carbon fiber fins from scratches and saltwater corrosion.

Water Sports: Ideal for kayaking, rafting, or beach trips where fin storage is needed.
